

COX "BEAT 'EM TO IT," SAY WOMEN

Has Personal Worker In Tennessee Campaigning For Suffrage Amendment

(By Associated Press)
Columbus, O., July 23—Governor Cox, the democratic presidential nominee, today told a delegation from the National Woman's Party that he already had "two or three men" working among members of the Tennessee legislature secure the 36th vote needed to ratify the federal woman suffrage amendment. The suffrage delegation asked the Governor to send a personal representative to Tennessee and were surprised and gratified to hear the candidate had "beaten them to it," as they said.

Harding Working, Too

Marion, O., July 23—"An earnest hope" that the republican members of the Tennessee legislature will support the ratification of the woman suffrage amendment was expressed today by Senator Harding in a telegram to John C. Houk, a republican member of the Senate in that state.

MORROW TO NOTIFY COOLIDGE TUESDAY

Frankfort, Ky., July 23—Back today after a vacation in Michigan, Gov. Morrow immediately delved into the construction of his speech of notification which he will deliver Tuesday at Northampton, Mass., the home of Gov. Calvin Coolidge, republican nominee for vice president. Governor Morrow will deliver the official notification speech, having been chosen for this honor as a result of the impression he made on his hearers at the Chicago convention.

Headed by Gov. Morrow, the Kentucky delegation of republicans will leave for Northampton Sunday. This state will send one of the largest delegations of any of the Central or Western States. Gov. Morrow said last night after perusing the list of the most prominent ones who will accompany him East.

Girl's Alleged Slayer

Reported Surrounded

Pottersville, Mich., July 23—Leaders of 300 farmers searching for an unidentified man who yesterday attacked and killed Beatrice Hickox, 13 years old, on a farm near here, declared today they had the fugitive surrounded in a swamp. Neighbors partially identified the fugitive today through a photograph as an escaped convict from Jackson prison.

Find Woman's Nude Body

In Trunk In New York

(By Associated Press)
New York, July 23—The body of a nude woman, jammed in a trunk, was found in unclaimed baggage at the American Railway Express company's office here today. The trunk was received from Detroit June 17.

The body, which had been covered with feminine wearing apparel, was crammed into the trunk two and a half by three feet

wound with rope and so crowded that the sides bulged. The woman was apparently 30 years old, and weighed 130 pounds, and had been fairly good looking.

TROOPS GUARDING SPRINGFIELD NEGRO

Who Is Taken Back To Washington County, To Answer Murder of White Boy

(By Associated Press)
Springfield, Ky., July 23—State troops today surrounded the Washington county court house and machine gun squads were posted at points of vantage to protect Robert Logan, 18-year-old, on trial for the murder of Joe Colvin, white, here last February. The negro was brought from Louisville, where he had been held for safe keeping. Adjutant General Dewese said today he anticipated no trouble.

Circuit Judge Thurman asked for military protection after hearing threats against the negro's life. The soldiers are from companies at Leitchfield, London, Manchester and Morehead. They are in two platoons, commanded by Capt. James Dillon, of London, and Capt. William Taylor, of Leitchfield. Capt. Taylor and his squad are the same who guarded Will Lockett at Eddyville, the slayer of Geneva Hardman, and were sent to Mayfield during the night rider troubles.

RESOLUTE WINS

(By Associated Press)

Sandy Hook, N. J., July 23—Resolute won today's international cup race after a spectacular finish, and tied two to two with Shamrock IV, in the fight for America's Cup.

Sandy Hook, N. J., July 23—The Resolute, defending America's Cup, passed first across the starting line half a minute ahead of the Shamrock IV, today, at the start of the fourth international yacht race.

The Resolute rounded the first mark, ten miles from the starting point, in the lead by two minutes and eleven seconds and sped away on the second ten mile leg of the 30-mile course.

JOHN S. RHEA INDICTED

Russellville, Ky., July 23—Judge John S. Rhea, of the Circuit Court at Russellville, was arrested Thursday afternoon on a United States warrant, charging specifically the use of the United States mails to send an obscene letter. His arrest is the culmination of a feud of political inquisition that began with the birth of the Russellville Messenger.

Judge Rhea was taken before U. S. Commissioner George S. Hardy, who released him on \$500 bond for preliminary hearing Thursday morning in Bowling Green. The arrest was made by U. S. Marshal A. T. Chaney.

NOTICE TO WATER CONSUMERS

The twelve inch water main on East Main street is out for the purpose of lowering it to a depth necessary for the new street. In the meantime the city is being supplied by a six inch main which gives only one-fourth of the water usually on hand.

It is therefore necessary until the large main is installed that the citizens use as little water as possible on account of the fact that a fire may break out at any time, and in that event it will take the capacity of the present six inch pipe to cope with the situation.

Therefore, the citizens must refrain from sprinkling between the hours of six o'clock a. m., and six o'clock p. m., and must use as little water as possible.

The main on East Main street will probably be in place again in about 10 days, and it is my hope that the people will co-operate with the city officials and the Water company and thereby avoid any possibility of a shortage of water in case of fire.

Yours truly,
L. P. EVANS, Mayor.

PRISONER TALKS OF FIELDS TRAGEDY

First Statement For Publication Issued By Chester Phelps In His Jail Cell

"I see your paper has taken sufficient interest in us to make a statement, not in our behalf, but giving the true version as given you," said Chester Phelps, as he graciously thanked the donor for magazines taken to his cell in the Madison county jail, where he, together with Bradley Smallwood and Milford Lawson, are awaiting their return to Knox county, where they will be tried for the alleged murder of Fred Fields, a young returned soldier, who met death in a mysterious manner in that county during the month of February.

All three are apparently being given a severe trial by being incarcerated in the "inner circle," the heavily iron-barred department of the jail after having had the freedom afforded by life in the army as well as after their return home. All are debonaire, Phelps more so than the others, however, the latter persisted in giving a personal statement to the public.

"After my discharge from the army," he related, "which was one to be proud of, even if my name was on it, I returned home and was here no time until I took a position with the Eastern Kentucky railway, altho I had never done that character of work before. You know those times were bringing thousands of men back and most of them wanted jobs. I took the one which was proffered me and am a member of the railway brotherhood. My record stands for itself. I am from New York, but have worked in Kentucky for some time and liked it better here. I worked steady. I knew Fred Fields, who also served for the same cause I did. I was with Fields at Corbin on the day previous to his death. I was greatly surprised, and even went to tell his people about it. I was never more shocked on the battlefield, and I got nine in the Belleau Wood battle, than when arrested myself for the crime I have made no effort to seek aid. I am innocent, as I believe these other two boys are, and while they are holding us, I surely want them to get the right man, for they have made a mistake."

Phelps stated that he could easily prove an alibi and was not worried as to the outcome of the trial.

GRADE CONTRACT LET

The contract for the grade work on the highways near Red House has been awarded to the same firm having the bridge and other road work in charge and this will close the contract for this feature of the extensive improvements to be made there. The active work will be started immediately. This represents almost \$18,000 worth of work, there remaining about \$6,000 worth of work to be taken up. The county will take up the work of doing the rest, since it is believed time will be gained and admit of some of the work being cheaper. Indications are that there will be unusual activity in the vicinity of Red House within a few days, since plans have been made for the material to be sent to the scene of the new bridge, and the road work will continue in the meantime.

Colyer Wants "Corrections"

Mr. H. H. Colyer dropped into the Daily Register office Friday morning, and said that some "corrections" would be made by the board inasmuch as he was of the opinion that all of the three candidates for the congressional nomination did not have equal representation on the list of election officers. He was asked if he had any objections to any of the officers appointed, but said that not having the list before him he could not say. He said that Sheriff Whitlock had not been present at the meeting of the Election Commission.

When asked about the matter, Mr. C. Terrill, democratic member of the election board, said that he and Judge Million, the republican member, had made the appointment of officers Thursday, the last day allowed under the law in which to make them. He said that Judge Million had gone upstairs after Sheriff Whitlock, but he was not in his office, and so they made the appointments and agreed upon all the men named.

He pointed out that it is only in case of a disagreement on the board that the sheriff has any vote in the selection of officers, as he is by virtue of his office, chairman of the board and votes in case of a tie or disagreement. Mr. Terrill said that the board appointed practically the same list of men who have served

PRODUCE MARKET SUDDENLY REVIVES

Recent Statement Explaining Situation, Brings Fruit and Vegetables To City

The statement published recently in the Daily Register regarding the freedom of the city for raisers of produce has brought about an influx of salesmen and saleswomen, who are disposing of considerable produce and fruit, indicating that, as stated, many were of the opinion that a city peddling license was necessary.

Peaches, as well as apples and blackberries, are to be found on many wagons now coming from various parts of the county. Chas. Haines, living in the southern part of the county, was in town Thursday with a wagon load of blackberries and peaches. He said that two hours only were necessary to dispose of his load. Mr. Haines said he, like many others, were imbued with the idea that a license was necessary to dispose of goods in the city. There has been a decidedly growing market during the past week, all of which illustrates the value of these columns in advertising. While there is an abundance of raspberries, Mr. Haines said, he thought a license necessary, and in order to avoid this, he carted his crop to the nearest railway station where it was bought and shipped away. This is another phase of the manner of disposing of home products much of which never reaches the home market.

Residents to the north are preparing to furnish produce to the big colony at Boonesboro, Beach, as a result of a statement issued to the effect that Clark county producers were bringing their produce from across the river and enjoying an immense patronage. Richmond is being well patronized by the summer residents of Boonesboro, who have autos, five machines coming to the city at one time Thursday and loading up with produce. One man stated there would be a great demand for fresh fruit, vegetables and poultry, if they could get it brought to them.

KENTUCKY WOOL COMMITTEE PLANS

The action taken by the State Central Wool Committee at its meeting Tuesday at Lexington, toward the disposal of the Kentucky wool pool will not be made public until next week. Dr. R. H. Stevenson, of Fayette county, chairman of the committee, announced at the conclusion of the session. Certain details must be perfected, he said, before a public report can be made.

It was decided definitely, according to Dr. Stevenson, that no counties not now in the pool will be taken in. A number of counties expressed a willingness to join the state pool but a refusal was necessary. Dr. Stevenson said, because of the inability to get men to grade the fleeces. All of the wool now in the state pool, about 700,000 pounds, is graded according to government standards.

Death claimed the fourth member of one family within eight months when Henry Clay Wyatt died at the home of his grandfather, T. B. Rawlings, near Flemingsburg.

While at the dinner table, Capt. D. A. Leffingwell, 78 years old, officer in the federal army during the Civil war, fell over dead at his home in Ashland.

as election officers in Madison county for a number of years, and that there were but very few changes of men who served in the last November election, all of whom had seemed to give perfect satisfaction to all sides concerned.

In regard to the congressional candidates, Mr. Terrill said that no candidate had submitted any list to the board, as the law provides may be done, and the question of who an election officer "is for" was not considered in the selections whatever, the board seeking merely to name good, square men for the work.

BRYAN REFUSES PROHIBITION NOMINATION

Bozeman, Mont., July 23—William Jennings Bryan last reiterated his refusal to accept the Prohibition party nomination. The first intimation of his nomination for the Presidency by prohibition convention in Lincoln, Neb., was received by him at one o'clock Thursday evening at Madison Lake upon his return from a forenoon fish, when he read an Associated Press dispatch giving the text of the telegram sent to him by the convention at Lincoln. He was forty miles from any telegraph office at the time, but as soon as he reached Norris, Mont., telegraphed a reply declining the nomination.

Bryan Is To Aid Democrats
On his arrival here, Mr. Bryan, in addition to making public the text of the telegram he had sent to be delivered to the chairman of the Prohibition convention at Lincoln, discussed his decision to decline the nomination, saying:

"I realize that there are many good people who are greatly disappointed with the silence of the old party platforms on the subject of prohibition and the enforcement of the prohibition laws, but while I would be pleased if I could accede to their request and make it possible for them to vote for me, I realize also that there are millions of Democrats who have helped to place the Eighteenth amendment in the constitution of the United States and who have been staunch friends in my fight. I feel that I cannot ignore them and I believe I can be of greater assistance by remaining in the Democratic party and assisting them in the future than by seeping outside of the party even to make the race for president."

HOLY ROLLERS FAIL TO BRING DEAD TO LIFE

The body of Andy Singleton was exhumed at the Ramsey buying ground in the Fall Lick section of Garrard county, where it had lain for three months Mr. and Mrs. Singleton belong to the Holiness band, or as most people call them, "Holy Rollers," and it is said Singleton expected a promise from his wife that she would have his body removed from the grave after three months and he would walk. But he failed to do as he said he would. A large crowd was present to witness the miracle they supposed would happen.

CONTRACTS AWARDED

Thursday night a special meeting of the Richmond City school board let the contract for remodeling of the Madison High school, formerly known as the Madison Institute to J. C. Bowman, of this city, and B. F. Hurst, of the Hurst Plumbing company. The former will have charge of the work of remodeling the brickwork and removal of the framework, which will be torn away, while the sheet metal, tinning, plumbing and electrical work will be in charge of Mr. Hurst.

Both men started the work on Friday morning, stating it was their intention to have the jobs finished by the time for resumption of school.

This, it was feared by members of the board, they would be unable to do. However, both contractors claim they will not admit of the work being delayed in the least. This will assure the building to be in complete repair and in condition for school upon the schedule time.

YOUTHS ARRESTED CHARGED WITH THEFT

Both Said To Have Broken Into A Country Home On Circus Day

Leeds Baughman, 17, and Dave Langford, 14, the latter colored, are in jail charged with having broken into the home of Green Jenkins, several miles east of the city, Tuesday, and carried away a number of valuable articles.

The lads will be given a preliminary hearing next Tuesday morning in the juvenile court, presided over by Judge W. K. Price. It is said the boys went into the country and to the Jenkins home, where they gained entrance and ransacked a bureau, after shooting the lock off, a gun having been procured in some manner yet unexplained. The theft was reported to the police later, but the arrest of the boys did not occur until Thursday. It is reported that both made statements after being apprehended that they had been in the Jenkins home.

They are charged with having carried away a quantity of sugar, after having thrown much of it about the floor of the home, and also to have carried off valuables including a gold ring, a number of valuable stickpins, etc. This will be the first case that has been called to the attention of the juvenile court for some time in Madison county. During the ransacking of their home, Mr. Jenkins and family were in Richmond attending the circus, it is said, and the robbery was discovered upon their return home. Both boys are residents of Richmond.

Harding's Opinion of Roosevelt

The Evening Post has diligently perused all the speeches of Warren Gamaliel Harding which it has been able to find, and in regard to only one subject do we ever find Mr. Harding speaking with any conviction, and that is in his praise of Theodore Roosevelt. We have printed heretofore quotations from Mr. Harding's summing up of the Progressive party and Progressive principles in 1912; here is what he said of the late Theodore Roosevelt as the leader of that party in a fight to dislodge the Old Guard of the republicans, that same Old Guard which named Harding at Chicago.

He (Mr. Roosevelt) has convicted himself of insincerity, inconsistency, ingratitude, and untruthfulness. He has shamed his past and discounted his future. He did all these things under the spur of his blinding egotism and insatiable lust for power and the notoriety which he mistakes for fame.

Needless to say the friends of Mr. Roosevelt will not accept this summing up. But this is the way Mr. Harding felt about Mr. Roosevelt in 1912; we do not doubt that in his heart he feels the same way today relative to any man who challenges the right of Penrose and Company to be masters of the republican party. —Louisville Post.

What! Jazz In Hymnals

Southern Baptists are soon to have at their disposal a new dignified hymn book in which there will be no "baptized waltzes" nor "sanctified jazz" in was announced at the annual meeting of the Baptist Sunday School board in closing. These characterizations were given to much of the so-called popular church music by Dr. W. W. Landrum, of Russellville, one of the vice presidents of the Southern Baptist convention, who urged that "The Little Brown Church in the Vale" was lacking in meaning, religious significance and uplifting music. That song will not appear in the hymn book, Dr. Van Ness, corresponding secretary of the board explained. —Nashville Tennessean.

Loss of Appetite

As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or eat only two meals a day for a few days you will soon have a relish for your meals when meal time comes. Bear in mind that at least five hours should always elapse between meals so as to give the food ample time to digest and the stomach a period of rest before the second meal is taken. Then if you eat more than you crave and take a reasonable amount of outdoor exercise every day you will not need to worry about your appetite. When the loss of appetite is caused by constipation, as often is the case, that should be corrected at once. A dose of Chamberlain's Tablets will do it.

WHEN EVERY MOVE HURTS

Lame every morning, achy and stiff all day, worse when it's damp or chilly? Suspect your kidneys and try the remedy your neighbors use.

Mrs. Carrie Long, 352 Fifth st., Richmond, says: "A few years ago I was down with kidney trouble, and for two months I couldn't straighten my back or turn in bed. I was helpless, and every time I moved the pains were so severe that I would scream. My limbs and joints were swollen and stiff. I had a dizzy swimming sensation in my head and objects seemed to float before my eyes. My kidneys were weak and caused me distress. I tried all sorts of remedies but with no relief. Finally I took Doan's Kidney Pills and they soon cured me of every sign of the trouble. I was able to do my work and my back was well and strong."

FISCAL COURT CRIST

At the regular meeting of the Madison fiscal court Tuesday the following were present: W. K. Price, county judge; Esquires T. B. Collins, L. T. Willson, D. J. Williams, Pleas Benton and Luther Todd.

Upon motion it was ordered that Judge Price, with the consent of W. S. Million, rent the court house at Newby to the teachers of the Newby school as a residence for the current school term of nine months at such a rental as he considered proper and that he insure the court house in the sum of \$500.

It was ordered that the county clerk draw a check payable to R. E. Turley for premium on insurance on policies on the court house and county infirmary as per his statement for policy of \$1,000 on the court house and \$2,000 on the infirmary.

An order was placed asking the county road engineer to select such roads as he thinks are in proper condition for surface treatment and buy sufficient gravel or other covering material to properly treat them, so as to connect with the road treated last year, the work to cover about two and a half miles.

The next order was that the county judge be authorized to receive the work of B. F. Hurst for plumbing work at the county jail and to make settlement with Mr. Hurst as per the terms of the contract.

Only one bid having been received

in response to the advertisement for the work detailed under the plans for changes in the Red House-Winchester road and the Red House-Union road and Union road, it was opened and tabulated. The bid was rejected for the reason that it appears to be excessive, and it was further ordered that the matter be referred to the county road engineer, and that he be authorized to separate the work into small contracts, if feasible, and to make such contracts privately as he thinks proper so as to reduce the cost; the contracts, if made, to be reported and confirmed by the court before the work is started or it becomes binding on the county.

It was ordered that the county road engineer be directed to repair the Lexington pike by patching holes from Richmond to the intersection of the Boonesboro pike at an expense not to exceed \$500, and to repair the same road from the Boonesboro pike intersection to the Kentucky river at Clay's Ferry in such a manner as he thinks best not to exceed \$1,000, and that the work be performed, if possible, not later than October 1.

Another order was that the road engineer ascertain from the highway engineer of the state, Hon. J. S. Boggs, what repair work is necessary to make the Otter Creek-Boonesboro road and the Richmond-Berea road heretofore constructed under the state aid law, and that the road engineer be directed to make such repairs so as to bring the roads to the standard required by the state highway engineer for acceptance as a part of the state highway system.

Forty Pounds In Six Weeks—
Feels Like New Man Now.

"The best proof I can give that Tanlac was the right medicine for me is the way it has relieved my suffering and is building me up," said James H. Johnson, for ten years switchman for the K. & I. Railroad, living at 1725 Crap st., Louisville, Ky., a few days ago.

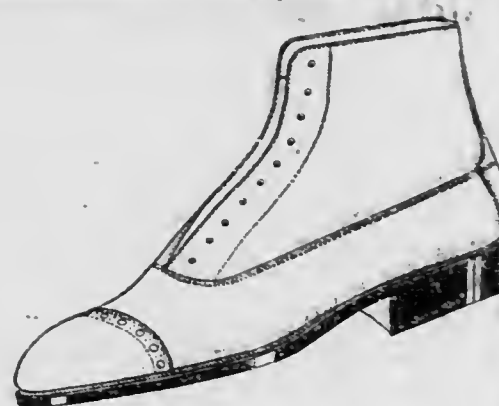

"Yes, sir, I was in an awful fix with my stomach all out of order and my kidneys worrying me day and night. I had to be careful about what I ate and often I was so nauseated I couldn't retain a thing on my stomach. I would bloat all up with sour gas and I had the worst sort of gnawing pains in my stomach. My kidneys bothered me continually and what little sleep I did manage to get was so restless I hardly knew I had ever been to bed at all. I

actually fell off forty pounds in six week's time and was going down the hill so fast it alarmed me. I tried everything anybody told me but I got worse instead of better and I was about ready to give up in despair.

"But one day I saw where a railroad man who was suffering like I was had tried Tanlac and was well pleased with it, so I began taking it and it gave me the finest kind of appetite. Then the indigestion left me and I started picking up in weight. And now in little more than a month's time I have already gained back fifteen pounds of my lost weight and I am still gaining right along. My kidneys don't bother me any more and I can sleep like a top all night long. I am feeling fine and the way Tanlac has built me up is nothing short of remarkable."

Tanlac is sold in Richmond by Stockton and Son; in College Hill by Ginter Brothers; in Berea by Welch Department Stores. It

neer for acceptance as a part of the state highway system. Mrs. Florence Eubank left Thursday for a ten days' stay at Dry Ridge.

Much Wheat and Many Trucks, But Few Teams

When it comes to wheat and progressiveness, count this much for Madison county—Thursday 51 truck loads of wheat were transported from the eastern part of the county to the flouring mills of Richmond over a single pike. "There was a noticeable

absence of teams and wagons, although there were many to be seen," commented one man, who was watching the steady pour of grain with the equally steady arrival of trucks. "Looks strange," he soliloquized, "to see the wheat, just threshed, being brought to the city, gasoline being used instead of horses. I tell you it was not this way when I was a boy!"

Caring for Baby During Hot Spells

Be watchful of food and keep bowels open with Dr. Caldwell's Syrup Pepsin

THE young mother soon learns from experience that summer days are often days that try her patience. The heat makes baby peevish, restless and cross. Foods that in colder weather were easily digested, now seem to cause distress.

Whether the milk or the food is at fault, see that the bowels move regularly. There is nothing that creates greater discomfort in the summer than constipation. It heats the blood and causes nervousness, headache, fever, colds and a host of minor ills. In these little ailments it is always well to suspect constipation and give half a teaspoonful of Dr. Caldwell's Syrup Pepsin at a drug store, and it proved effective at once. The boy is now seven, and has not been constipated since. Whenever there is a baby these hot days there should be a bottle of Syrup Pepsin.

FREE Millions of people of all ages suffer from occasional or chronic constipation. Let them send name and address to Dr. W. B. Caldwell, 312 Washington Street, Monroeville, Ill., for a free sample bottle of his wonderful Syrup Pepsin. 8 million bottles were bought at drug stores last year, the largest sale in the world.

UNUSUALLY SMALL NUMBER OF FIRES

Something About Quantity of Gasoline Required For City Fire Department

A record is being made both in the number of fires and the quantity of gasoline being used by the fire department thus far this year, there being a decidedly smaller number of fires for the first half.

But 45 gallons of gasoline have been consumed in operating the fire truck thus far, while the record was made one year ago in January, when 27 gallons were used. There were many fires, and it will be remembered that this was a "dangerous period," according to the city firemen. The record has not been reached since by far. There was no gasoline purchased during the month of March, and the largest quantity brought in was in April, there having been a small quantity bought during the two months previous.

The record of expense for the Richmond fire department, it is said, is among the first of the state, where the number of runs recently recorded have been made City Firemen Stone Maupin and Mose Nelson, who are in charge of the truck, and who are taking great care of it, are being complimented upon more than one phase of the work; the recent record-breaking run to the east end being cited as an extraordinary one by the departments of the state. There has been much favorable comment made thru the press regarding this record, chronicled in this paper. There have been record runs reported in other cities, but the local record still stands, when the distance and number of stops are considered.

The city of Richmond has been purchasing the gasoline from the Indian Refining company, whose office for this district is in Lexington. This is said to be the best for fire department use obtainable, and it is procured at wholesale prices.

Garden of Eden Tree Destroyed by Tommies

London, July 22.—The tree of knowledge in the Garden of Eden treasured by the Moslems of Furaah as the original tree from which the serpent tempted Eve, is no more. British Tommies on furlough from the British army in Mesopotamia, ensconced themselves in its branches to have their photos taken, and the tree crashed under the weight.

The Moslems made representations to the British government and claimed compensation for ruin of this priceless landmark at the junction of the Tigris and the old channel of the Euphrates. A court of inquiry has decided that a mosque shall be built upon the spot at a cost of \$1,750. Fines of several days' pay have been assessed against the erring soldiers.

SOUR APPLE TREE COMES INTO ITS OWN

Persons who look at the sour apple tree with a longing in their hearts for "eider time" are permitted to squeeze the juice from the fruit without being required to give bond or obtain a permit, under a recent ruling of John F. Kramer, commissioner of internal revenue.

In fact, juice may be squeezed from any fruit, but the resulting liquid must be nonintoxicating, and must be used at home unless sold to persons having permits to sell vinegar.

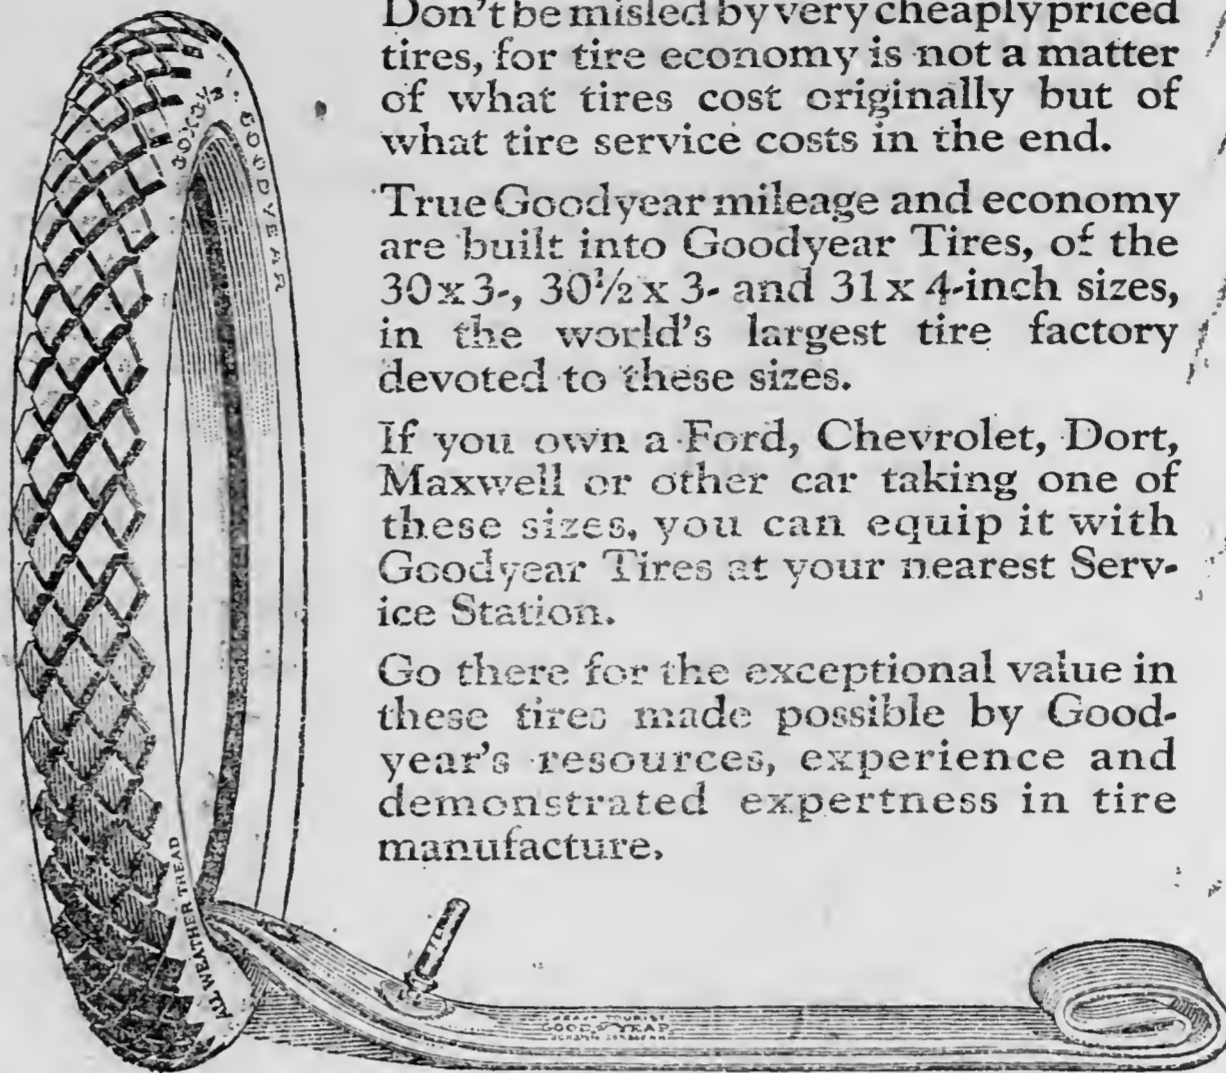

If the juice is preserved, its owner may sell it to the public in general. He may allow it to turn to vinegar, so long as he adds no sugar or other fermentable substance to increase its alcoholic content, and sell the vinegar. The ruling applies only to homes and is not a commercial regulation, though the owner of fruit has the alternative of pressing the juice out in his own back yard or having it done at a custom mill.

HAVING FOXES NOT CRIME

Shelbyville, Ky., July 22.—Frank Allen was acquitted by a jury before Special County Judge H. B. Kingsolving in the county court on a charge of having foxes in his possession. The summons was issued at the instance of the state game warden.

The new law governing the allowing of livestock, cows especially, to roam along the highways for grazing purposes, which terminated in three men being arrested some time ago, is said to be obeyed throughout the county as a result.

NEW YORK TIMES HONORS MISS CLAY

In the mid-week pictorial magazine of the New York Times, which is one of the finest pictorial magazines of current history in the world and one of the most interesting and instructive features of this great eastern daily, there appears in the July 15 number a very interesting full page group of notable women now attracting attention of the American public. In this group are Mrs. James M. Cox, wife of the democratic nominee for president; Mrs. Warren G. Harding, wife of the republican nominee; Mrs. Franklin D. Roosevelt, wife of the democratic nominee for vice president; Mrs. Calvin S. Coolidge, wife of the republican nominee for vice president, and Miss Laura Clay, of Kentucky, mentioned in the distinguished group as the first woman to receive a ballot for nomination for president.

Miss Clay was sent as a delegate by Madison county to the democratic convention held in Louisville that selected the delegates to the Democratic National Convention, and was selected by the Louisville convention as one of the delegates-at-large from the State of Kentucky to the Democratic National Convention at San Francisco. While there she received complimentary ballots for the nomination for president in recognition of her eminent ability as a leader of public thought among the democratic women of America. Court House Painting Is Nearly Completed

The work of decorating the interior of the court rooms and various offices in the Madison county court house is well under way, several rooms having been completed, and the attention of the workmen is now given to finishing the circuit court room. The colors, sky blue for the ceilings and silver gray for the side walls, is much in evidence and presents a fresh, attractive appearance. The work was given to local painters, not having been given out by contract, since it is believed more economical. The interior of the office of the County School Superintendent was also given a coat of paint.

MUCH REAL ESTATE BEING TRANSFERRED

Big Demand For Both City and County Property—Increasing Families

Mr. L. W. Dunbar, hustling sales manager for the Freeman Realty Company, who believes in making things go and is doing some demonstrating as he goes along, reports the sale of the property on Second street of Mrs. S. D. Parrish to Miss Elizabeth Smith, of this city, consideration \$3,500. This is but one of several transfers of real estate to the credit of the youthful manager recently, who reports a steady demand for property both in Richmond and Madison county, adding that those desiring to purchase want "good quality" and willing to pay for the same, denoting great confidence in the future of the local vicinity. The real estate dealers are the ones truly in position to feel the pulse of the people—except physicians—but strictly speaking of real estate there has been more farms sold, more large farms reduced to smaller ones, for the accommodation of the purchaser, during the past year than the five years previous. This means that there are more men of family seeking their future home in this vicinity. Some of the largest real estate deals in the way of country property have been recorded in this and adjoining counties within the past few months.

NEW SCHOOL AND CHILD LABOR LAW

For the benefit of those not understanding the new school law and that pertaining to child labor the following will be enlightening:

Every normal child compelled to attend some school, common, private or parochial, for the full term between the ages of six and sixteen, unless such child is not in proper physical or mental condition to attend school, and unless such child has completed the grades. In case children attend private or parochial schools, such school shall provide a term that must not be for a shorter period than the term for the common school, and the teachers and the course of study in such private or parochial schools must be approved by the state board of education; and such private and parochial schools shall report attendance in the same manner as common schools.

Employment certificates may be issued to children between fourteen and sixteen years of age, in accordance with the provisions of law regulating the employment of children. Such children who have not satisfactorily completed the grades shall attend the continuation school, when established, for not less than four nor more than eight hours each week throughout the regular term.

Railway Brotherhoods

But Partly Satisfied

Chicago, July 22—It was reported last night that 10 of the 16 brotherhoods had voted to accept the rail wage award, with the proviso that new demands would be prepared immediately for presentation to the Federal Board. Three of the remaining organizations are said to have rejected the award, favoring an immediate referendum on the strike issue. The remaining three, which, it was reported, included the Brotherhood of Railway Trainmen, and the order of Railroad Conductors, were said to be "on the fence."

Summer Complaint In Children

There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care is taken as to diet, it is safe to say that fully ninety-nine out of every hundred cases recover. Mr. W. G. Campbell, of Butler, Tenn., says: "I have used Chamberlain's Colic and Diarrhoea Remedy for summer complaint in children. It is far ahead of anything I have ever used for this purpose."

The Chance You've Been Looking For

I will offer for sale privately my farm of 76.71 acres, located on good private pike, 1-4 mile off the Lancaster pike, the proposed Federal Highway, 2 miles from Richmond.

This farm has on it a new 6-room cottage, 15-acre tobacco barn, 1 4-room tenant house. The land is rolling, but as good tobacco land as can be found in Madison county. About 25 acres 1-year cultivation, balance in old bluegrass sod, ready for the plow. In one of the best neighborhoods in the county. Can arrange to give possession to suit the purchaser.

If you are looking for a money maker close to town, school, etc., see me at once, as this is the only one on the market and will sell.

NEW CERTIFICATE MEASURE DOWNED

Prof. J. Howard Payne, of Richmond, Makes Successful Appeal For Teachers

At the meeting of the fourth-class city superintendents at Frankfort on Saturday, Superintendent J. Howard Payne, of our city, received important recognition. The meeting was for the purpose of arriving at a uniform basis of certification of teachers in cities of the fourth class. Mr. Payne is one of the five superintendents appointed to compose the board of examiners for teachers of these cities. An organization of superintendents in cities of the fourth class was effected, of which Mr. Payne was elected secretary.

It was the sentiment of the body that all teachers in fourth-class cities conform to the new plan of uniformity in certification by taking an examination in August or September regardless of whether they hold certificates issued by city boards of education or not. Mr. Payne made a plea for the teacher who has been regularly certified by a city board by pointing out that such a regulation would be an *ex post facto* law. He contended that the whole purpose of uniformity is to remedy conditions where teachers are teaching without any certificates at all and not subject properly certified teachers to a sudden examination. The superintendents recognized this point and agreed to give two more years of life to the old city certificates, by which time everybody will be expected to conform to the new regulations. These regulations are, of course, subject to the approval of boards of education in cities of the fourth class.

The new law would have required every teacher teaching in the schools in cities of the fourth class to hold a proper certificate before being eligible. City boards would have the right to recognize certificates issued by the state or by certain educational institutions, or issue certificates to applicants upon examination. Under the law city schools could recognize an elementary certificate of the first grade issued by the state (this year), state certificates, state diplomas, certificates issued by the State Normal or by the State University. It would not recognize the old county certificates whether of first or second class.

Chamberlain's Colic and Diarrhoea Remedy

This medicine always wins the good opinion if not the praise of those who use it. Try it when you have need for such a remedy.

EXODUS OF STUDENTS

The exodus of students from Eastern Normal continues and load after load of trunks is being hauled to the depot daily, there being a steady stream of those departing after summer school term. There will soon be a return of those registering and enrolling for the new term which begins later, and in the meantime the quarters will have all been renovated and put in order for the new comers. There will be an unprecedented number, it is believed, since the enrollment promises to be such as to tax again the capacity of the institution. There will be various changes at the school this term. The work on the dormitories and other improvements will soon be under way.

Flying Squadron Of Sleuths Invade State

There is a flying squadron of revenue experts invading this part of the state, checking up reports on soft drink sales, theater tickets and other forms of business which pay government tax on their sales and it is reported a considerable sum is being collected. This corps of men also looks after the delinquent tax lists, but they are reported as being very few here.

There was a recent canvas of some of the Richmond business houses and were found paid up and they will doubtless be ready to receive the visitors when they arrive. This is a most extensive work and will cover the entire state.

Woman's Beauty No Secret

It all lies in the care she bestows upon herself and in keeping at bay those dread ills peculiar to her sex. The flashing eye, the elastic step, and the clear complexion never accompany organic troubles. The distressed expression, lassitude, headaches, and mental depression are only tell-tale symptoms. Women so troubled should take Lydia E. Pinkham's Vegetable Compound, that simple remedy made from roots and herbs, and restore their health to a normal condition. It

Thos. Whitaker's Barn Destroyed By Lightning

A stock barn on the farm of southeast of Newby, was struck by lightning Thursday evening during a thunder storm and was burned to the ground. There was a quantity of grain in the barn which was destroyed. Usually there was considerable stock kept in the building, but at this time, it is reported, most of this was out on pasture.

John Phelps Released

John Phelps, colored, arrested a few days ago as a result of his accumulating a spring wagon load of coal from roads west of the city, was released from custody Friday morning by County Judge W. K. Price, who called for the preliminary examination, and there was a total absence of prosecuting witnesses.
